Key Features

- High Durability, very long life
- Great Aesthetics.
- Flame Resistant, Perfect UV resistance; High abrasion resistance
- Lacquering prevents Natural and industrial dirt to settle; Aggressive dirt can be cleaned with normal detergent soap and water
- Covers large area without Support
- Ease of Fabrication; Perfect Weldability
- Quick Installation
- Ease of Maintenance

Tents are one of the oldest forms of roofing solutions known to man. From being a simple sheet of fabric hung with poles, tents have come a long way. They now incorporate many features such as portability, immediate use and time & location independence, quick installation, quick dismantling, and roofing & weather protections for events, presentations, and leisure applications make tents an essential part of culture and life style, today. These features are only possible due to high quality & light weight fabric of SRF.
WE ARE SRF
SRF is a multi-business entity engaged in the manufacture of Technical Textiles, Chemicals, Packaging Films & Engineering Plastics. With headquarters in Gurgaon, India, the USD 760 million company with a global workforce of around 5500 has operations in India, UAE, Thailand & South Africa.

SRF ACCOLADES
SRF pioneered introduction of synthetic coated fabrics in India. We have been market leaders based on our product range and their performance. SRF's own polyester yarn, world class weaving & coating facilities and proprietary PVC compounding assures longer fabric life by exceptional functional parameters.
