

TUF BET - (PBT) (Polybutylene terephthalate)

TUF BET is our brand of PBT is a semi-crystalline engineering thermoplastic that is used as an insulator in the electrical and electronics. insulation properties, outstanding dimensional stability and resistance to the effects of a wide range of chemicals, solvents, and oils.

Un-reinforced grades offer performance typical of a crystalline polymer, combining good strength and stiffness with low moisture absorption, exceptional thermal stability, excellent electrical

Automotive/Transportation	Four wheeler	Auto Exterior	wiper component (Wiper Motor housing/Wiper Nozzle) Mirror Base
		Auto Interior	AC Fins Wire Harness Connector
		Auto Lighting	Reflector Bezel Lamp,socket
		Auto Safety components	Brake System,booster body,actuator,vacuum
	Two Wheeler	Exterior	Throttle Grip Engine Ignition coil
	Electrical & Electronics	Electronics	Connectors
Consumer Durables			Compressor Housing Grinder Knob Bulb Holders Base kit White good Housings
Electrical		Power Distribution & circuit protection	Motor Starter MCB/MCB Switches Power Capacitor Core Energy Meter (Terminal Blocks)
Others		Consumer Durables Paint Bristles
