

## **Waste Management and Reporting Policy**

### **1. Purpose**

The purpose of this policy is to establish procedures for the quantification, assessment, and reporting of Hazardous and Non-Hazardous Waste generated by SRF Altech Ltd. This policy aims to ensure transparent and responsible waste management practices and public disclosure of waste data.

### **2. Scope**

This policy applies to all facilities and operations of SRF Altech Ltd. It covers the management of Hazardous and Non-Hazardous Waste generated from our activities and associated waste disposal methods.

### **3. Core Principles**

**Transparency:** SRF Altech Ltd. is committed to publicly disclosing accurate and comprehensive information regarding the quantity and management of waste.

**Responsibility:** We acknowledge our responsibility to minimize the environmental and human health impacts of waste generated by our operations.

**Sustainability:** We aim to implement waste management strategies that align with the Waste Mitigation Hierarchy and continuously improve our waste management practices.

### **4. Waste Management and Reporting**

#### **4.1 Quantification and Disclosure**

**Annual Reporting:** SRF Altech Ltd. will quantify and publicly disclose the quantity of Hazardous and Non-Hazardous Waste generated from its activities and, where possible, from those within its Area of Influence on an annual basis.

**Waste Disposal Methods:** The annual disclosure will also include details on waste disposal methods.

**Public Availability:** Reports will be made available to affected populations, organizations, and the general public via the company website and other appropriate channels.

#### **4.2 Impact Assessment**

**Material Impacts:** The Entity will assess the material impacts of waste on human well-being and the environment.

**Impact Evaluation:** This evaluation will consider factors such as waste composition, potential hazards, and disposal methods.

#### **4.3 Waste Management Strategy**

**Waste Mitigation Hierarchy:** SRF Altech Ltd. will implement a Waste Management Strategy that adheres to the Waste Mitigation Hierarchy, prioritizing avoidance, resource recovery, and disposal.

**Strategy Development:** The strategy will cover all waste types and streams generated within the relevant scope of operations.

**Control Measures:** Sustainable and integrated control measures will be included to manage the generation, storage, handling, treatment, transportation, and disposal of waste.

**Action Plans:** The strategy will include time-bound action plans to reduce landfill use and achieve zero landfill as a long-term target.

**Recycling:** Consideration will be given to recycling materials and by-products for use by other industries.

**Legal Compliance:** The strategy will comply with applicable laws regarding the management, treatment, and disposal of waste, particularly Hazardous Waste.

#### **4.4 Risk Management**

Waste Characterization: Waste will be characterized by sources, composition, separation, quantities, flow rates, storage, treatment, and disposal methods.

Improvement Measures: Technical, operational, production, and management controls will be implemented to enhance waste management practices.

Partnerships: Collaborations with local waste treatment and recycling facilities will be explored to process and recycle waste.

#### **4.5 Benchmark Targets**

Targets and Milestones: Benchmark targets and milestones will be developed to drive continuous improvement in waste management and reduce environmental impacts.

### **5. Documentation and Reporting**

#### **5.1 Reporting and Disclosure**

Annual Reports: Information on waste management and impacts will be included in annual and sustainability reports.

Sustainability Reporting: The information may be reported in line with GRI 306 and available on the company website or upon request.

Detail and Accuracy: The level of detail in reporting will reflect stakeholder interest and legal requirements.

Estimation Methods: If precise data is unavailable, estimates will be based on waste density, volume collected, or mass balances.

#### **5.2 Transparency and Access**

Community Access: A summary of waste information, including baseline data and typical quantities, will be provided to affected communities.

Independent Review: If requested, access to independent experts for validation of waste data will be facilitated.

### **6. Review and Continuous Improvement**

#### **6.1 Policy Review**

Regular Review: This policy will be reviewed at least every five years or as necessary to reflect changes in regulations or company operations.

#### **6.2 Continuous Improvement**

Ongoing Enhancements: SRF Altech Ltd. is committed to continuously improving waste management practices and reporting to minimize impacts on human health and the environment.

Approved By,

Site Head, SRF Altech Limited.
